NOTE: Benefit cost figures are provided to reflect the approximate cost for the fiscal year. Exact amounts depend upon insurance rates that are subject to change. Above calculations are based on 12 months work and could vary based on time actually worked. If employed by a grant, the employee’s position is conditional upon continuation of grant funding for the project. In addition, University policy requires that all employees whose positions are funded with grant monies must have their annual leave fully funded within the grant.
