**Campus Unveiling**

Dr. Fisher’s office was buzzing with excitement on Friday morning. Gathered on the second floor of the First American Bank were several of the people most influential in helping us get the campus. October 6, 2006, was the public unveiling of the plans for Northwestern’s newest campus. Dr. Fisher and Dr. Cunningham (the current president of Northwestern Oklahoma State University) revealed three computer rendered images and one floor plan to over twenty local leaders and Northwestern’s Woodward Leadership Advisory Board.

This facility is a long awaited addition to this town, but no one is looking forward to its completion more than the current faculty, students and staff of NWOSU- Woodward. This new building will give us various facilities that will enrich the students’ lives such as: a science laboratory, a computer laboratory, a library, a bookstore, a commons area, a conference room, a faculty break room, areas for administrative offices, and also 11 classrooms. Plans are available for viewing in Dr. Fisher’s office.

The groundbreaking will be on November the 8th at 11:00 A.M. on 34th Street just west of Experiment Lake. Everyone is invited to attend this event.

“The challenge in life isn’t in not falling down, it is falling down with grace and standing back up with purpose and integrity.”
